

The South Fork John Day Watershed Council will be going on a field trip for our October 11th Council Meeting. We will be leaving the Izee Schoolhouse at 9:30 am and traveling to the Utley Roadless Area with the Emigrant Creek Ranger District. Our first stop will be in Spoon Creek to view a cooperative project with the USFS and also look at conditions of the Roadless Area. We will then travel to see forest health work that private landowners are doing adjacent to the Roadless Area. We will end the tour back at the Schoolhouse by 1:00 where we will recap what we saw and the USFS will update us on the Dove project area.

We will not have call-in or virtual options, but all are welcome to join us on the tour.
